

**Bacchus Law Corporation is Awarded  
2010 Canadian Capital Markets Law Firm of the Year by Corporate INTL.**

Corporate INTL magazine quote:

“Corporate INTL 2010 Legal Awards are a mark of practice excellence for the world’s leading law firms and layers in an array of countries and continents across the globe. The 2010 Legal Awards are given in recognition to those who have shown excellence not only in expertise but in service during a difficult global economic downturn.

In order to choose our Legal Award winners we undertook detailed research in all practice areas through our editorial and research teams and created a shortlist of firms that are experts in their chosen specialisms.

The firms shortlisted were researched by our own independent team looking at their service range, business, where they operate and the support they offer to companies that either trade or may want to trade in their jurisdiction.”
